

Subject Matter Expertise

Consultancy

- At Ethos Health we have had over 20 years' experience investigating and managing the impacts of health and fatigue in the workplace. Throughout these years we have provided Subject Matter Expertise (SME) in a variety of fatigue-specific areas including:
- Fatigue Risk Management System (FRMS) risk assessment and system review
- Hours of work diagnostic and roster review
- FRMS policy, procedure and assessment tool development
- Conference presentations
- Research, evaluation and reporting on FRMS related issues
- Provision of technical insight to support management decisions relating to their FRMS
- Fatigue Technology development and review

- Provision of written content for training resources (e.g. information sheet, training presentations)
- Development and design of online training resources

We provide SME across a wide range of industries, including:

- Utilities
- Transport and Logistics
- Construction
- Mining
- Agriculture
- and more...
